Follansbee® Honored by *Residential Architect*, *Custom Home* Magazines

KlassikColors®-Topped "Shack at Hinkle Farm" Wins 10th Annual Design Awards Competition

FOLLANSBEE, WV...Hanley Wood's *Residential Architect* and *Custom Home* magazines have honored a Follansbee KlassikColors project in their 10th Annual Design Awards competition.

The innovative "Shack at Hinkle Farm," located in Upper Tract, WV, received the "Grand Award" in the Outbuilding category. Follansbee KlassikColors in Stone Gray lends a timeless look to the 140 square-foot structure, complementing its understated aesthetic.

"The unique look of KlassikColors makes it a practical option for realizing cutting-edge design, as with the Shack at Hinkle Farm," says Edward Thomas, Follansbee vice president and general manager. "We're honored to be a part of this award-winning project."

Architect Jeffrey Broadhurst, Broadhurst Architects, designed the structure, completed in the fall of 2006.

As one of just 24 award-winning projects, the Shack at Hinkle Farm will be featured in the March/April issue of *Residential Architect* and the May/June issue of *Custom Home*. Also visit www.residentialarchitect.com or www.customhomeonline.com.

KlassikColors is a pre-painted Terne II zinc/tin coated roofing sheet offered in an extensive palette of designer colors. Its base sheet is coated with Follansbee's patented ZT® (zinc/tin) alloy and then painted with solar reflective paint coatings. The ZT alloy provides enhanced durability and extends the life of the metal for many years, even if the painted surface is breached. KlassikColors is available in a selection of hues, ranging from deep, rich tones of red, blue, green, gray to earth tones of beige, tans and browns. These colors were chosen to maintain the oxide hues that have characterized Terne roofs since colonial times. Custom formulated colors are also available. A superior, time-tested roofing metal, KlassikColors carries a warranty of 30 years.
